Comment #1 Application Dismissed 12/5/2022 via PN for the following reason: The proposal violates 47 C.F.R. § 74.1233(a)(1). Specifically, the section states that “a major change is any change in antenna location where the station would not continue to provide 1 mV/m service to some portion of its previously authorized 1 mV /m service area.” Specifically, our study shows the proposed 60 dBμ service area fails to provide service to some portion of its 60 dBμ authorized service area, (BLFT-20121017AAC), which is a violation of Section 74.1233(a)(1) of the Rules. See “Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications,” Public Notice, 56 RR 2d 776 (1984) for general information about filing a curative amendment.
